MARKET PREVIEW

Asian stocks gained as higher gold and copper prices boosted commodity companies, overshadowing concern share sales will dilute the value of existing holdings.

Japan's economy expanded at the fastest pace in more than two years in the third quarter, led by a rebound in domestic demand that may ease concern of a return to recession next year. GDP rose at an annual 4.8% pace, after a 2.7% gain in the second quarter, Cabinet Office figures showed today in Tokyo.

FDI in China climbed for a third month in October from a year earlier as companies bought into a strengthening economic recovery. Investment rose 5.7% to \$7.1 billion, the Ministry of Commerce said at a briefing in Beijing today. That compared with an 18.9% jump in September. Investment in the first 10 months fell 12.6%.

The dollar weakened as Asian-Pacific leaders pledged to maintain stimulus measures, supporting demand for higher-yielding assets and sending commodity prices higher. Most Japanese stocks fell on concern banks will issue new shares. The Dollar Index lost 0.3% to 75.106 as the Asia-Pacific Economic Cooperation group said they would maintain spending until there was "durable" growth.

China's banking regulation chief joined Hong Kong's leader in blaming the Fed's interest-rate policy for fueling speculative capital flows that may spur asset-price inflation. "The continuous depreciation in the dollar, and the U.S. government's indication that, in order to resume growth and maintain public confidence, it basically won't raise interest rates for the coming 12 to 18 months, has led to massive dollar arbitrage speculation," Liu Mingkang, chairman of the China Banking Regulatory Commission, said in Beijing yesterday.

A stronger Chinese yuan is part of the reforms that Beijing needs to implement to increase domestic consumption and help ease global imbalances, the head of the IMF said on Monday. Strauss-Kahn said the countries at the heart of global imbalances needed to take various measures to ease them. In the case of China, that means an increasing emphasis on domestic demand, especially private consumption, Strauss-Kahn said in remarks prepared for a financial conference in Beijing.

Auto parts shortage hits carmakers effort to meet rising demand

The country's top carmakers are struggling to meet an unexpected spurt in year-end demand, with component makers failing to match a sustained surge in sales since August. The problem has been building up since late August when the car and SUV sales went into an overdrive. The industry had already prepared itself for single-digit growth numbers, when the April-October period saw demand growing at over 16% on the back of nearly 21% growth in September and 34% surge in October. Car sales in India grew just 0.31% in the FY2009. (ET)

Cairn India completes gas drilling at Barmer

Cairn India has successfully drilled and completed its first horizontal well at Rajasthan's Barmer field that will add 11,000 barrels of oil per day (bopd) to the earlier reported production volume of 5,991 bopd. The field continues to ramp up production. "What we are excited about is our first horizontal well. Although it is not one of the longest ones, at 380 meters, it is a prolific producer. We have tested it at 11,500 barrels a day," he said. Currently, production at Rajasthan fields have been ramped up to 20,000 bopd, as the company gears up to deliver crude to Reliance refinery in Jamnagar. Reliance is the second customer after MRPL to receive the crude. IOC will be the third customer to get the crude from early next year. (ET)

NTPC working on coal mines allotted by govt

NTPC said it is developing coal mines allotted to it for captive use and added that it takes 6-7 years to harness a mine even by international standards. NTPC's statement comes amid reports the Ministry of Coal has written to the Power Ministry, threatening to de-allocate the coal blocks allotted to NTPC citing reasons such as delay in developing those mines. "No, we are developing all the five mines allotted to us," NTPC Chairman and Managing Director R S Sharma told reporters. "We were awarded the first mine in 2005 and work is on in all the coal blocks allotted to us." (BS)

UltraTech board okays Samruddhi Cement merger

Samruddhi Cement, a wholly-owned subsidiary of Grasim Industries, is all set to merge with UltraTech Cement – Grasim's another subsidiary, on July 1, 2010. The merger, to be completed by September 2010, will result into world's tenth-largest cement maker. UltraTech's board approved the merger of Samruddhi with itself. As a part of the scheme of amalgamation, Samruddhi's shareholders will get four shares of UltraTech of face value Rs 10 for every seven shares of Samruddhi of face value of Rs 5 each. UltraTech will issue 14.95 crore of new shares, thereby increasing its equity capital to Rs 274.20 crore. Upon effectiveness of the merger, Grasim will hold 60.3 per cent stake in UltraTech's expanded equity and 39.7 per cent will be directly held by the other shareholders of UltraTech and Samruddhi. Planning Commission to undertake mid-term appraisal

The Planning Commission which is in the middle of the 11th Five Year Plan is undertaking a comprehensive mid-term appraisal to fine tune the agenda for the remaining period. Member Planning Commission Narendra Jadhav said that they would be completing the mid-term review by December and the next budget in February 2010 would reflect suggestions that they get from this exercise. Mid-term appraisal of Planning Commission is a regular exercise but is usually a long drawn process. This time the members are working to ensure that it is expedited and they complete the exercise by December so that any fine tuning in policy matters can be effected at the earliest. (ET)

India's domestic demand helped contain global crisis: Pranab

Finance Minister Pranab Mukherjee said India's large domestic demand helped insulate the country against the worst of the global crisis and the effort now is to bring the economy back to 9 per cent growth. "The Indian economy has shown remarkable resilience to the crisis because the financial system had no exposure to the toxic assets," Mukherjee said, adding policies were also in place to prevent build up of debt. Developing countries were in no way responsible for the crisis but have been the hardest hit, the minister said, adding India has also been affected "but fortunately not as bad as some others." He said India's growth is largely domestic economy driven, with merchandise exports accounting only about 15 per cent of GDP. (ET)

State-owned oil companies hike jet fuel prices by 2.4%

For the second time this month, state-owned oil firms on Sunday hiked jet fuel prices, this time by 2.4%, after a spurt in international oil rates. Aviation turbine fuel (ATF) prices in Delhi will be increased by Rs948 per kl to Rs40,423 per kl effective midnight, an official of the Indian Oil Corp. Ltd (IOC), the nation's largest oil company, said on Sunday. This comes on back of an at least 9% hike in ATF prices on 1 November. ATF rates in Mumbai will go up by Rs988 to Rs41,710 per kl. IOC, Bharat Petroleum Corp. Ltd and Hindustan Petroleum Corp. Ltd had for three consecutive fortnights cut ATF rates, mostly because global oil prices had eased and rupee strengthened against the dollar. (Livemint)

Power sector major beneficiary of D6 gas

The power sector has been the major beneficiary of Reliance Industries Ltd's D6 gas. The assured gas supply to the sector from two tranches of allotment done by the government will be over 30 million standard cubic metres a day (mscmd), which is double of what is expected to go to the fertiliser sector. In addition, the power sector will be getting 22 mscmd gas on a fall-back (temporary allocation in case of surplus availability) basis, with 10 mscmd out of this quota going to captive power plants. The Ministry of Petroleum and Natural Gas would be issuing instructions for fresh gas allocation from D6 this week, following which new buyers would enter into gas sales and purchase agreements with RIL, said a senior government official. The instructions will be based on the Empowered Group of Ministers (EGoM) decision taken last month. (BS)

INTERNATIONAL
Japan Economy Accelerates, Reducing Danger of Renewed Recession

Japan's economy expanded at the fastest pace in more than two years in the third quarter, led by a rebound in domestic demand that may ease concern of a return to recession next year. GDP rose at an annual 4.8% pace, more than the forecasts of all 20 economists in a Bloomberg News survey, after a 2.7% gain in the second quarter, Cabinet Office figures showed today in Tokyo. (Bloomberg)

Euro Advances as Economic Recovery Signs Boost Demand for Risk

The euro rose for a second day against the dollar as signs the worldwide economy is recovering boosted demand for higher-yielding assets. The euro gained against 13 of its 16 most-active counterparts as Japan's gross domestic product expanded for a second-consecutive quarter. The dollar fell against 11 major currencies after Asia-Pacific leaders pledged to maintain stimulus measures until there's "durable" growth. "The GDP data were much stronger than expected, boosting risk appetite," said Yuji Saito, head of the foreign-exchange group in Tokyo at Societe Generale SA, France's third-largest bank. "The bias is for the yen and the dollar to be sold to buy higher-yielding currencies." (Bloomberg)

Korea Pension Fund to Buy HSBC Headquarters for \$1.29 Billion

South Korea's National Pension Service, the nation's biggest investor, agreed to buy HSBC Holdings Plc's London headquarters for 772.5 million pounds (\$1.29 billion) as the fund boosts overseas assets. HSBC, Europe's largest bank by market value, will remain at 8 Canada Square, a 656-foot (200-meter) tower in the Canary Wharf financial district, following the sale to Seoul-based NPS, according to a statement yesterday. Officials at the South Korean fund were not available for comment. The South Korea's state pension fund plans to double its international assets to 15 percent of its total holdings by 2015, the fund said in July. (Bloomberg)

GE forms China JV to make airplane electronics

General Electric's aviation unit is teaming with Aviation Industry Corp of China to develop and market electronic systems for commercial aircraft customers, including the C919 narrow-body aircraft that China hopes will compete with jets made by industry giants Boeing and Airbus. GE Aviation provides jet engines, parts and systems for current commercial and military aircraft, and the AVIC joint venture will offer electronics and services for future commercial aircraft programs. GE has more than 12,000 employees currently based in China. (ET)
