These guidelines were issued in the context of the recommendations made by the Financial Action Task Force (FATF) on anti-money laundering standards. Compliance with these standards by all intermediaries and the country has become imperative for international financial relations. As per the provision of PMLA every Member shall have to

2A. Scope:

These policies and procedures apply to all employees of Nirmal Bang Securities Pvt. Ltd. and all its subsidiaries and are to be read in conjunction with the existing guidelines. The following procedures have been established to ensure that all employees know the identity of their customers and take appropriate steps to combat money laundering.

3. What is Money Laundering?

Money Laundering may be defined as cleansing of dirty money obtained from legitimate or illegitimate activities including drug trafficking, terrorism, organized crime, fraud and many other crimes with the objective of hiding its source and rendering it in legally usable form. It is any act or attempted act to conceal or disguise the identity of illegally obtained proceeds so that they appear to have originated from legitimate sources. The process of money laundering involves creating a web of financial transactions so as to hide the origin of and true nature of these funds.

This is done in three phases – Placement Phase, Layering Phase & Integration Phase.

The first stage in the process is placement. The placement stage involves the physical movement of currency or other funds derived from illegal activities to a place or into a form that is less suspicious to law enforcement authorities and more convenient to the criminal. The proceeds are introduced into traditional or nontraditional financial institutions or into the retail economy. The second stage is layering. The layering stage involves the separation of proceeds from their illegal source by using multiple complex financial transactions (e.g., wire transfers, monetary instruments) to obscure the audit trail and hide the proceeds. The third stage in the money laundering process is integration. During the integration stage, illegal proceeds are converted into apparently legitimate business earnings through normal financial or commercial operations. Having identified these stages money laundering process, financial institutions are required to adopt procedures to guard against and report suspicious transactions that occur in any stage.

4. **Financial Intelligence Unit (FIU) – INDIA**

The government of India set up Financial Intelligence Unit (FIU-INDIA) on November 18, 2004 as an independent body to report directly to the Economic Intelligence Council (EIC) headed by the Finance Minister. FIU-INDIA has been established as the central national agency responsible for receiving, processing, analyzing and disseminating information relating to suspect financial transactions.
